

ConfigTokenizer::printTokens

```
graph LR; A[ConfigTokenizer::printTokens] --> B[ConfigTokenizer::TokenKind ToString];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'ConfigTokenizer::printTokens'. The right box is gray with a black border and contains the text 'ConfigTokenizer::TokenKind' on the top line and 'ToString' on the bottom line.
