

Slice::consumeStart

RoutingInfo::findRoute

Slice::startsWith

```
graph LR; A[Slice::consumeStart] --> C[Slice::startsWith]; B[RoutingInfo::findRoute] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes with black borders contain the text 'Slice::consumeStart' (top) and 'RoutingInfo::findRoute' (bottom). On the right, a gray rectangular box with a black border contains the text 'Slice::startsWith'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'Slice::consumeStart' and 'RoutingInfo::findRoute' call or depend on 'Slice::startsWith'.
